# Fast-Rack Ultra

## Sloped Roof Racking

### FEATURES

- Silver and Black options available
- Industry leading rail spans
- Watertight attachments for every install
- Rail levelling (1”) on mounting feet
- FR-Edge, End caps, cable clips & more

### ADVANTAGES

- Aesthetic low-profile design
- Minimal roof loading (typically under 3psf)
- Compatible with attachments for most roof types
- Adjustable design for ease of installation
- Pairs with Fast-Rack Accessories

The Fast-Rack Ultra rail system is designed for rapid installation of PV arrays on sloped roofs. Standard Fast-Rack features include easy rail leveling, self sealing roof attachments, and integrated bonding. The system was designed to provide installers with a cost effective and elegant solution. The Fast-Rack Ultra is fully engineered and CSA certified to meet the highest standards.
